Dedication	5
 II Lyran Math Olympiad Algebra Solutions Manual for Book 1: Fundamentals of Polynomials	 7
1 Polynomial Foundations	11
Polynomial Foundations and Standard Transformations	11
Roots, Factorization, and Structural Consequences	14
Viète's Formulas and Symmetric-Sum Techniques	31
Quartic and Quintic Polynomials	39
2 Algebraic and Polynomial Expressions	55
Functional Expressions: Substitution, Composition, and Invariance Ideas	55
Polynomial Expressions: Degree, Factoring Patterns, Simplification Strategies	62
3 Polynomial Factorization Methods	69
Univariate Factorization	69
Bivariate Factorization	73
Trivariate Factorization	79
Multivariate Factorization	93
4 Polynomial Division and the Euclidean Algorithm	105
The Division Algorithm	105
Remainders, Evaluations, and Polynomial Congruences	110
Polynomial GCDs and the Euclidean Algorithm	122
5 Advanced Polynomial Theory and Methods	127
Essential Advanced Polynomial Theorems	127
Symmetric Sums in Olympiads: Identities, Inequalities, and Reconstruction	128
Advanced Polynomial Problems	136
6 Complex Numbers and Polynomial Geometry	147
Complex Number Problems	147
7 Algebraic Systems and Equation Methods	157
Polynomial Equations: Standard Forms, Transformations, Solving Strategies	157
Trigonometric Tricks for Algebraic Systems	175
Irrational Equations: Radicals, Squaring Strategies, Extraneous-Root Control	192
Reciprocal & Palindromic Equations: Inversion Symmetry & Key Substitutions	211
Piecewise & Discrete Equations: Floors, Ceilings, Absolute Values, Casework	224
Arithmetic of Polynomial Roots: Power Sums, Transformations, Root Relations	243
Mixed Systems of Equations: Symmetry, Substitution, Olympiad Casework	254
Appendix A Arithmetic Methods for Polynomial Problems	285
Number-Theoretic Polynomial Problems	285

Appendix B Selected Polynomial Problems	323
Trigonometric, Chebyshev, and Symmetry Problems	323
Summation and Finite Difference Identities	324
Algebraic Numbers, Conjugation, and Radical Identities	324
Appendix C Classical and Contest Polynomial Problems	327
Recorded Contest Problems: Foundations	327
Recorded Contest Problems: Advanced Methods	328
Recorded Contest Problems: Synthesis	414
Appendix D Polynomial Synthesis: Equations and Complex Methods	509
Mixed-Method Mock Contest	509
Past Competition Problems	592
Original Synthesis Problems	621
Bibliography	633
Physical Resources	633
Online Resources	634
Acronyms	641
List of Problems in Solutions Manual	643
Indexes (Solutions Manual)	653
Index of Methods	653
Index of Theorems	657
Index of People	659
Index of Tools & Problem Types	661
Index of Sources	663
